

# GFX-750

## Display System

The PTx Trimble GFX-750™ display system continues a strong tradition of sleek, easy-to-use displays from PTx Trimble. With a simplified installation process, your cab will be less cluttered with this automated guidance system. Add in Bluetooth® and Wi-Fi® connectivity to go along with ISOBUS compatibility and you can tackle farming applications from every season across all of your equipment brands.

### Key Features

- Large 10.1" (25.6 cm) high-definition colour touch-screen display
- Android™-based operating system allows you to customise the display for the way you work
- Rugged construction for everyday field use, meeting demands in harsh environments
- One integrated camera with support for an additional external camera
- Easy transferability between vehicles

### Easy Installation

Designed from the ground up to save valuable cab space and install quickly, the GFX-750 display can be installed with an autoguidance system in just half a day in most vehicles or in under two hours if using manual guidance, eliminating costly down time in the field.

### Isobus Compatibility

The GFX-750 display works on most tractor brands or with most implement manufacturers on your farm with ISOBUS control. The Task Controller function with automatic section control, as well as documentation, is fully integrated and easy to use in the working screen.

### Enhanced Connectivity

Our most connected display ever comes with Wi-Fi, Bluetooth, CAN and for the first time, BroadR-Reach® high-speed communications to allow fast and easy transfer of data between vehicles and the office. The display is environmentally hardened for the ag vehicle environment and runs Precision-IQ™ software which connects directly to the PTx Trimble Ag Software suite.

### Android Operating System

Running a modern Android operating system, the GFX-750 display performs at high levels for an intermediate price. The system allows you to customise the display for the way you work and is highly upgradable to meet your farm's growing needs.
